The Department received a single written comment. The hearing officer reviewed the single written comment and recommended that the Department proceed with the new rules without change.

Summary of Public Comment and Agency Response:

A written comment was submitted by Jean Public (address unknown).

COMMENT: The following is the commenter's remarks in their entirety: I cannot attend your meeting which meets at the same time as the NJ Legislature. Strange scheduling conflict. But I believe that the minimum wage should not be increased. This comment is for the public record.
RESPONSE: As indicated in the May 19, 2014, notice of proposal, Article I, Paragraph 23, of the New Jersey Constitution requires that the State hourly minimum wage rate be increased. The Department has no discretion to deviate from the State Constitution.

Federal Standards Analysis

Section 6 of the Federal "Fair Labor Standards Act of 1938" (29 U.S.C. § 206), contains a minimum hourly wage rate of $7.25, with no scheduled adjustments, annual or otherwise; whereas N.J.A.C. 12:56-3.1, as amended, contains a minimum hourly wage rate, effective January 1, 2014, of $8.25, with an annual cost of living adjustment to that rate based on any increase in the CPI-W, U.S. City Average, during the preceding year. The existence of a minimum hourly wage rate in New Jersey which exceeds the Federal minimum hourly wage rate will most certainly have an economic impact on all of the citizens of this State, whether those citizens are minimum wage earners who will receive a pay raise, business owners who will be required to pay the heightened minimum hourly wage rate to their employees, or citizens of the State who are neither minimum wage earners, nor business owners, who will be impacted in one way or another (whether positively or negatively) by the existence of a minimum hourly wage rate in New Jersey which exceeds the Federal minimum hourly wage rate. However, as explained earlier, the Department has no discretion to deviate from the recently amended State Constitution, which, effective January 1, 2014, increased the State minimum hourly wage rate to $8.25 and which requires that the rate be adjusted annually to account for increases in the cost of living, as reflected by annual percentage increases in the CPI-W.
